

COOL IN STYLE

Made from stainless steel, the new line of Mr. Gasket coolant tanks finally put an end to unattractive plastic cans and coolant stained aluminum cans. These tanks resist stains, provide excellent performance, and look great! Available in various diameters and lengths, they will fit just about anywhere. For more info, visit www.mrgasket.com.

CLASSIC WIRE

Dayton Wheel's new Triple Cross Lace wire wheel is available in 13- to 18-inch diameters in any chrome or paint combination. Manufactured 100-percent in the USA using the finest materials possible, each wheel is handcrafted with a forged steel hub, polished stainless spokes, and trued from the factory with a guarantee against any manufacturer defects for three years. Dayton wheels are chrome plated using a four-layer nickel process, or painted to match your car with the provided paint code. For more info, contact Dayton Wheel Concepts at (800) 862-6000; visit www.daytonwirewheel.com.

ELITE STANDARD

Hot Rod Air introduces its new Elite Standard SE evaporator. The unit provides three vents of air conditioning, a vent for floor heat, and two ports for dehumidified defrost. The unit also allows for the blending of hot and cold air in the vent and floor heat modes. Equipped with a new advanced-technology blower, the overall size of the Elite is only 19 inches (wide) by 8 3/4 inches (high) by 7 7/8 inches (deep), which allows for use in the tightest of spaces. A Lifetime Parts Replacement Warranty backs the Elite Standard SE. For more information, contact Hot Rod Air, 9330 Corporate Dr., Suite 308, Dept. CRM, Selma, TX 78154; phone (888) 357-0040; visit www.hotrodair.com.

KUSTOM KLOCKS

Faded Kolors has developed a complete line of vintage-style wall clocks with the "kustom" enthusiast in mind. Faded Klocks are designed to reflect the custom era of the '50s with a simulated weathered look. With a 12-inch face and several styles to chose from, they fit virtually every personality! On top of the many unique designs offered, Faded Kolors can also reproduce your own company's logo or personal design (discounts for multiple orders available). Each Faded Klock utilizes brass hardware and runs on a mini-quartz clock motor with accuracy to 15 seconds per month. For more info, please contact Faded Kolors at (714) 396-0519; visit www.fadedkolors.com.

RUST NO MORE!

Stop dealing with rusted-out, conventional steel pipe fittings and plugs—Performance Stainless Steel's new line of durable and highly smooth fittings are manufactured from 304 stainless! Fittings are available for heater hose, bypass hose, pipe plugs, and accessories in Hex and 12-point with a variety of sizes. Performance guarantees their fittings not to rust or corrode for one year. These and many more stainless products are available at www.PerformanceSST.com, as well as at major aftermarket distributors and retail centers.
